THE IMPORTED "AMERICAN WORKMAN."
Washington Post.—There is too much gush about the rights of "the American workman." Nine times out of ten the man who resorts to violence and practices brutaility is not an American at all, but a half civilized foreigner, who can accarecly speak our language and does not respect or even understand our institutions.

Frankfort Cupital.—There has never been, and there will never be, a Civil Service Commissioner who did not give advantages to the members of his own party. It is only a hermsphroditic Mugmup who would claim that absolute impartiality can exist in such a commission while made up of men with spirit enough to believe in the principles of one or the other of the two great parties, and courage enough to express their orinions.

THE BOYCOTT ISSUE IN COURT.

Philadelphia Times.—The order of Judge Ricks of the United States District Court of Tolech restraining the Brotherhood of Locomotive Engineers and Firemen from enforcing a boycott against the freight on the Tolech and Ann Arbor Rallway, raises a question which many thoughtful men have expected to see raised long ago. The pith of the issue is the right of the employes of a railroad to do any act or thing to prevent the road from doing what it is bound by law to do,

The Richmond Register sums up the situation in three sums, thusly:
If such men as Fred Grant are to be retained in office during a Democratic Administration, your Uncle Grover might as well turn over the whole business to the Republican party.

The new President has been very slow a sending in appointments to displace spepublicans, and has further announced and no officeholders under his former diministration need apply, as he intends make a new deal. A Mugwump is as sood as a Democrat and a Democrat is at the better than a Republican—that's all.

What's the matter with your Uncle Grover that he has decided to continue Fred Grant as Minister to Adurta, In-positing a good Democrat in his stead! It this is a Democrate President's prec-dent, why not keep in the whole litter It has been been a support of the control of This kind of policy may suit Grover and Greaham, but the old-fashioned Democrate are kicking like Texas seers.

AN HOSOMABHE EXCEPTION.

The Philadelphia Press remarks, that he is the only Democrat who held office four years ago who deserves reappointment." More than eight years ago Mr. Cleveland declared against a second term for President, but has since accepted two mominations and one election. This declaration was in his first letter of accept acceptance, dated August 18th. 1884. Speaking of the election of a man "to assume for a time a piblic trust, instead of his ledication to the profession of politics," and of "the full realization of, a 6 overnment by the people." Mr. Cleveland said: and of "the full realization of, a 6 overnment by the people." Mr. Cleveland said: which was a manadament to the Constitution disqualifying the President from residention.
